

VILLAGE LOCATIONS

Each village has two very important places you should visit - the Inn and the Market.

INNS

Go to the Inn in each village. Even if you don't need rest, there will be people to talk to and items to find. Of course, if you sleep at the Inn, your HP and MP will be completely refilled.

MARKETS

Here is where you purchase items like weapons, armor, tonic and other things you will need on your journey.

To see whether you made a good or bad purchase, look at the color of your attack numbers. Blue numbers mean you have added to your abilities; white numbers show you have remained the same; and gray ones mean you've decreased your level.

ITEM DESCRIPTION
This describes what the item does.

ITEM PRICE LIST

This is a list of the wares for sale in a village, and what they will cost.

MONEY

This is how much gold you are holding.
